## **Has anyone heard of the pyramid that was found under Alaska?: Pyramids in North America**

---

In November 1992 while stationed in Alaska, a television news cast announced that scientists had used the nuclear underground test blast of the Chinese to get seismic readings of the earth due to its great blast wave. What was found under Alaska was a pyramid that was larger than any in Egypt. When I went to get a recording of the news cast because they did not air it that night, I was told that they were told not to give that story out and to say that it was not aired at all. When I asked who gave them this order they would not tell me except to say, forget you ever heard it! Someone besides the twenty or so soldiers who were with me in the orderly room heard the news cast but I can't find anyone with a copy of the story or who have heard of this finding. Can you help me out? I believe it was channel 13 Anchorage who originally aired the story as it was a by line of the story of the Chinese setting off the underground nuclear blast test. They showed the earth and the

great size of the pyramid. Gave its location in latitude and longitude. I got a GSA map later and found that the area was whited out with the quotation that the area had not yet been surveyed.

## **Is There A Large Pyramid Underground Between Mt. McKinley and Nome, Alaska?**

---

A retired U. S. Army Counterintelligence agent says that when China exploded its largest underground nuclear test on May 22, 1992, geologists and seismologists used the event to study the Earth's crust and discovered a large pyramid-shaped structure underground in western Alaska between Mount McKinley (red circle north of Anchorage) and Nome on Norton Sound.

Allegedly, Anchorage Channel 13 broadcast one news story in the fall of 1992 about the China nuclear test and subsequent pyramid discovery. The Army agent says he learned the news report was ordered erased.

## **Is There A Large Pyramid Underground Between Mt. McKinley and Nome, Alaska? [brief excerpt]**

Hello

My name is Douglas A. Mutschler CW2, USA (ret) and during my service tour in Alaska I was informed of a pyramid under the land in Alaska. There is other information concerning this that came to my attention after it was reported to us in 1992. I have tried to pass this info to others but have not heard any response to my information. I assure you I am telling you the truth about this and I think that this is being kept quiet by our government as the news was buried the very next day after it was brought to my attention. If you can help me get this info out to you please call me so I can talk to you about this. My phone number -----. The whole story is pretty interesting and this can be verified with your contacts I'm assured of that, as I do not have them and came up with zero from the news people there. I'll tell you the whole story if you are interested. I've only contacted a couple of people but have not heard back from any of them. I'm wondering if my emails are getting through to them or is this an old story that has no interest to news reporters?

Thank you for your time in this matter.

Douglas A. Mutschler

Out of the interview itself:

... two goons go, “Hey, you don't have a need to know for that information.”
