One of the first conclusions an impartial observer must make about the subject of UFOs is that rumors and circumstance play far too great a role in what ought to be a more exacting quest for knowledge. It is just such an observation which once led Dr. Carl Sagan to comment dryly that UFOs "are more a matter for religion and superstition than they are for science."

While this dismissal is perhaps unscientific in its own right, the point is well taken. Attend any gathering of "UFO people" you want, and simply listen. Rumors abound. Perhaps worse, however, is that some of these rumors manage to circulate for years (even decades) without anyone making a reasonable effort to get to the bottom of them.

One of the most persistent of these is a story that President Eisenhower visited Edwards Air Force Base in early 1954, and either viewed the bodies of dead aliens and the wreckage of their craft, or met with live aliens on some sort of diplomatic mission to earth.

The story takes many forms, with the common thread being that Ike mysteriously disappeared one evening while on a vacation to Palm Springs, and that he was spirited to Edwards to view (or meet) aliens. It is said that he returned by dawn and shortly thereafter ordered absolute secrecy about anything having to do with UFOs.

No doubt one of the reasons that this particular rumor has continued to circulate for such a long time is that there are a number of verifiable facts associated with it--some of them rather curious.

For example, President Eisenhower did indeed make a trip to Palm Springs between February 17th and 24th, 1954, and on the evening of Saturday, February 20th, he did disappear! When members of the press

learned that the president was not where he should be, rumors ran rampant that he had either died or was seriously ill.

The story even managed to get onto a press wire before being killed moments later. To quell the fuss, White House Press Secretary James Haggerty called an urgent late evening press conference to announce "solemnly" that the president had been enjoying fried chicken earlier that evening, had knocked a cap off a tooth, and had been taken to a local dentist for treatment.

When Ike turned up as scheduled the next morning for an early church service, the matter seemed ended. Although the Palm Springs trip was billed as a "vacation for the president", the trip appears to have come up rather suddenly.

In addition, it is a matter of record that Ike had returned from a quail shooting vacation in Georgia less than a week before leaving for Palm Springs.

While the incidence of a local dentist being called upon to treat a president of the United States is unusual enough that it should constitute a rather memorable event for those involved, the dentist's widow, in a June, 1979 interview, was curiously unable to recall any specifics relating to her husband's alleged involvement in the affair--not even the time of day it had occurred. Yet her memory appeared flawless when asked to relate details of her and her husband's attendance (by presidential invitation) at a steak fry the following evening, where her husband was introduced as "the dentist who had treated the president".

This would appear to suggest a cover story, the details of which would have easily been repeated at the time, but quite naturally forgotten 25 years later. Research at the Eisenhower Library has uncovered two other facts inconsistent with the dentist story.

The first is that while the library maintains an extensive index of records relating to the president's health, there is no record of any dental work

having been performed at all during February, 1954. A file on "Dentists" contains nothing concerning any such incident either. Secondly, there is a large file containing copies of all sorts of acknowledgments which were sent by the White House to people who had something to do with the Palm Springs trip.

There are letters, for example, to people who sent flowers, people who met the airplane, people who had offered to play golf, etc. There is even a thank you letter to the minister who presided over the Sunday service Ike attended. Yet there is no record of any acknowledgment having been sent to "the dentist who treated the president."

If the matter were as routine as Haggerty attempts to make it appear, then the absence of these records seems strangely inconsistent. The rumor of the president's alleged visit to Edwards is not a new one. UFO contactee fringe writers began making unsupported claims about it less than two months after Ike's trip.

So did a bizarre fellow from the Hollywood hills named Gerald Light, who, in an April 16, 1954 letter to the head of a Southern California metaphysical organization, actually claimed to have been at Edwards where he saw Ike, the saucers and the aliens. Light's letter has been controversial for years and copies of it have turned up in all sorts of places, including the National Enquirer.

Investigation into Mr. Light's background, however, turned up the fact that he was an elderly mystic who believed that psychic "out-of-body-experiences" were a logical extension of the reality of life and should be treated as such. In the final analysis, Light's alleged visit to Edwards was just such an experience.

And so the story ends. Clearly something unusual occurred involving the president on the evening of February 20, 1954. Whether it was a trip to the dentist, a trip to see flying saucers, or something altogether different and unrelated, no one can say. It's the stuff rumors are made of.

Alien Invasion & Fake Rapture (#p15650)

Please use your discernment when reading this, there is alot of disinformation out there.

Over 90% of the American public believe in UFO's. More importantly, 95% of the people who believe in UFOs *also* believe that our government is keeping this knowledge from the public. But why? Are they afraid that the public will panic if an "official" announcement were made? Hardly. Such an announcement would create tremendous interest and excitement, along with many questions, (particularly by the churches) but not panic. Why then the continued cover-up?

There is overwhelming evidence from informant "Whistle Blowers" (retired military officers who have finally said, "Enough is enough. It's time the government told the people the truth!") such as Navy intelligence officer, William Cooper (who has since been killed), Major John Lear (whose father founded the Lear Jet Corp.) and Air Force officer William English, who are trying to alert YOU to the secrets behind the UFOs and the Alien presence on earth. These people worked on many of the secret projects, had access to 'classified' Top Secret documents and saw with their own eyes 'captured' aliens, UFOs and the incredible technology that they brought with them.

Sightings of UFOs have been reported throughout history. Biblical and historical references to "Flaming Chariots", huge 'flying birds' and odd looking beings pre-date our history by *thousands* of years. In the 1940's, several alien spacecraft were recovered by the U.S. and other countries, along with a few dead aliens, along with one *live* alien, which was named "EBE" (Extra-terrestrial Biological Entity - a name suggested by Dr.Vannever Bush).

In 1953, astronomers discoverd large objects in space which were moving toward earth. At first they believed they were asteroids, but later evidence proved that the objects could only be spaceships. Project Sigma and Project Plato intercepted alien radio communications and by using computer binary language, they were able to arrange a landing that resulted in face-to-face contact with alien beings from another planet.

Meanwhile, a race of benevolent "human-looking" aliens contacted the United States Government, warning that the aliens orbiting the equator were hostile beings from Orion and that their presence was only the beginning of events to unfold on this planet.

These human-type aliens demanded that we dismantle and destroy our nuclear weapons and cautioned us that we were on a path of self-destruction and that we must stop killing each other, stop polluting the earth, stop destroying the earth's natural resources and learn to live in harmony with one another, or we would surely perish. President Dwight D. Eisenhower rejected their warnings and demands.

In 1954, a race of aliens known as the "Greys" [from Zeta Reticuli star system] had been orbiting the equator and landed at Holloman Air Force base. They explained that their planet was dying and that they desperately needed quarters on earth to conduct genetic experiments, which might allow their race to survive. If we would agree to their offer, they would exchange certain technology as a form of payment. President Eisenhower met with the aliens and a formal treaty was signed. The treaty stated that the aliens would not interfere in our affairs and we would not interfere in theirs. We would keep their presence on earth a secret. In exchange, they would furnish our military with advanced technology.

They could abduct humans on a limited basis, for the purpose of medical examination and monitoring, with the stipulation that the humans would not be harmed, would be returned to their point of abduction and would have no memory of the event. It was also agreed that alien bases would be constructed underground - beneath Indian reservations, in the 4 corners area of Utah, New Mexico, Arizona, and Colorado - as well as in Nevada (in the area known as S-4, about 7 miles south of "Area 51", known as 'Dreamland'). A multi-billion dollar secret project fund was organized and kept by the Military Office of the White House, supposedly to build secret underground sites for the President and the staff in case of military attacks, but the real purpose was to construct underground accommodations for the Greys.

By secret Executive Memorandum NSC5410, Eisenhower established a permanent committee known as "Majority or Majestic Twelve" (MJ-12) to oversee and conduct all covert activities with the aliens. This included FBI director J. Edgar Hoover, as well as six leaders of the 'Council on Foreign Relations [CFR], known as the 'Wise Men' - and later, others from the Trilateral Commission. George Bush, Gordon Dean, and Leonid Brzezinski were among them.

A major finding of the commission was that the aliens were using humans and animals for a source of glandular secretions, enzymes, hormonal secretions, and blood, as well as in horrific genetic experiments. The aliens explained that their actions were necessary for their survival, that if their genetic structure were not improved, their race would cease to exist.

The ruling powers decided that one means of funding the alien project was to corner the illegal drug market. A young ambitious member of the Council on Foreign Relations was approached. His name is George Herbert Walker Bush, who at the time was president and CEO of Zapata Oil Co., based in Texas. Zapata Oil was experimenting with offshore oil drilling and it was arranged that the drugs would be shipped from South America to the offshore platforms by fishing boats, then transferred to the U.S. shore by normal transportation, thus avoiding search by customs agents. The plan worked better than anyone ever expected, and today the CIA controls ALL of the world's illegal drug markets.

The public needs to be informed that it was George H.W. Bush (Dubya's father) who first started selling drugs to our children. The drug money was used (and to this date is still being used) to finance

the deep underground alien bases.

The Bilderbergers, the Council on Foreign Relations (CFR) and the Trilateral Commission are the Secret Government (or the real government), who rule this nation through MJ-12 and the JASON Society research group(<http://www.angelfire.com/wa/fatfreddy/secret3.html> (<http://www.angelfire.com/wa/fatfreddy/secret3.html>)). They are in collusion with the Reptoids!

Throughout history, the aliens have manipulated and ruled the human race through various secret societies, religions, and the occult. The CFR and the Trilateral Commission are in complete control of the alien technology and the nation's economy. Eisenhower was the last president to know the entire overview of the alien problem. Succeeding presidents were told only what MJ-12 wanted them to know, and it was NOT the truth. MJ-12 presented each new president with a picture of a lost alien culture seeking to renew itself, build a home on this planet, and shower us with gifts of technology. Each president has bought the story without ever questioning the validity of the Greys "arrangement".

Meanwhile, innocent people continue to suffer unspeakable horrors at the hands of alien and human scientists who are engaged in barbarous research. As if that is not enough, many people end up as food for the insatiable alien appetite for biological enzymes, hormonal secretions, and blood.

By 1989, over 3 million "Greys" were occupying these deep multi-level underground complexes. Level 7 at Dulce is called "Nightmare Hall". They have welched on their agreement about abducting humans. Today over 25 million citizens have been abducted and implanted - a literal army awaiting orders to march! (Whitley Strieber has written several books about his personal experiences, although it has been leaked that Strieber is a CIA operative). For this reason, other nations were informed. Within 5 months, the communist monolith Russia was dismantled, to unite with the U.S. and it's technology to fight the upcoming invasion.

At least 1 in every 40 Americans has been implanted with an alien device, that is used to 'control' them, if and when it would become necessary to do so.

The Hubble Space Telescope was created to keep a watchful eye on the alien invasion fleet. - not to take high definition pictures of the galaxy. Star Wars technology has been developed to stop them in outer space before they can get to earth ... well ... hopefully.

Today, the government is on the verge of a dilemma, as too many anonymous sources are releasing alien information. The public could get angry at continued secrecy. So MJ-12 plans to make an "Official" announcement soon, under controlled conditions, probably at or near Area 51. Network TV will be called in to meet the staged 'landing' of the aliens, those being the "Greys". They will come bearing gifts, technology that will supposedly heal Cancer and AIDS, retard aging, etc. They will tell us that they are 'saviors of humanity', who have come to defend the earth against an invasion of man-eating aliens, called "Reptoids".

This story is a LIE! The Greys already work for the Reptoids! Their plan is to unify the world into a One-World Government, a 'New World Order' - with the argument that only this can defeat the invasion by Reptoids. This is a trap to enslave the world's population. Control will be accomplished through the world monetary system, a universal currency controlled by international banksters, who for years have been lackeys of the aliens. The Greys seized upon the bankers greed and lust for wealth and power as a means to bring about their evil plan to control the earth. (This also being the scenario predicted in the Bible's 'Book of Revelation', wherein only those who accept the "Mark of the Beast" (the aliens being the 'Beast' and the 'Mark' being some sort of laser tattoo or debit card that they will use, which will allow people to buy and sell goods).

Those who do not accept this 'Mark' must live outside the money system and learn how to survive on their own through barter, etc.

Those who watch television will have already begun to notice the increase of 'reptilian' references, not only in advertisements, which are part of the conditioning process, but also in some of the educational programs in the sense of discovery programs. There have been large sums of money given toward the research of reptilians just during the past few months and this is in part a result of the concern by those who understand the nature of the things on your planet in regard to the Reptoids and their threat.

This Awareness indicates that by studying the reptilians, the nature of reptiles in great detail, they hope to find information that helps to deal with this threat. It has been suggested in the Isuzu advertisement "When the reptilians come, will you be ready?" "Will your car be large enough?" The ad was created as a marketing joke, but it is also part of the preparation. The Japanese are far ahead of the United States in terms of exposing such information to the public, having played the Cooper tapes and other UFO tapes on Japanese television during the past year quite frequently. Most of the Japanese people are very much informed in regard to this kind of information. It is still being strictly withheld in the United States though.

The situation is thus - the Reptoids or Reptilians are already present on Earth in considerable numbers. There are, of course, further numbers yet to come, when the timing is right for this action. As early as ten years ago, many of your scientists discovered a planetoid moving in the direction of Earth and mention of this was made in several of your publications and newspapers. Then there was silence in regards to this phenomenon. (look up Planet X, Nibiru, Twelfth Planet).

Essentially, Nibiru has already arrived and is parked outside of the orbit of Pluto. From that planetoid are shuttle craft that frequently move through the solar system, to and from Earth, using bases on the moon, Mars, and Titan (a moon of Saturn). The Reptoids have this area already under their domain in a sense, in the sense that they direct the behavior and control over the Greys. The Greys, in kind, have considerable influence over the leaders of many of the countries and nations of this world. Part of the Reptoid fleet that was on their way to Earth has been destroyed and crash landed on Jupiter, due to Sirian interference.

There are factions within your nation in which there is both support and conflict with the alien scenario and there are many who want to prevent this alien take-over of the planet and are working toward that end, while others are garnering favors from the aliens, in the hopes that by compromising and doing whatever they are told now, they will be spared any adverse treatment in the future. Not so!

During the coming years, more and more attention will be focused from the media and other sources on UFOs and the publicity will become popularized for the masses. Especially possible is an increased focus on Area 51 in Nevada, for entities to be given more and more information on this in small articles and various press releases scattered throughout different publications, until the area becomes fairly well known, especially among those who have an interest in UFOs, because this appears to be the staging ground for the alleged landing for the UFOs, which will be 'officially' announced.

By announcing the alien presence on earth in an area that is classified as "top secret", the entire event can be controlled, so that the press can be selectively chosen to give limited information regarding the staged landing. The plan would also call for (this in reference to the alien's general plan, which may be altered of course, especially since this is being released) world-wide attention to be brought to this, along with other sightings and other events pointing to the real existence of UFOs.

The hard-core critics and cynics of UFOlogy will then begrudgingly recognize the existence, because spokesmen from the media will have 'officially' recognized the presence and these critics who consider themselves as intellectuals will now have someone official that they can rely on for information, and will suddenly become hard-core believers. They will then be the main supporters of the scenario that is presented, even though it will be part of a facade, a massive brainwashing trick to fool the masses.

This announcement will be part of a fake invasion. Stan Deyo's book, "Cosmic Conspiracy", presents detailed information about the fake invasion. He has other information that is irrelevant and of a more personal position, but he does present well the information regarding the fake invasion, which he refers to as the "fake rapture". It will give the impression that the aliens are here to protect mankind from a future invasion that is coming, which they will tell us is going to be an invasion by the Reptoids.

The fact is that these aliens are already representing and working for the Reptoids. The Reptoids will remain out of sight. The true invasion that these entities are trying to "protect" you from will be that of the Sirians - those from Sirius and The Pleiades - who are in fact true friends of humanity. These very deceptive aliens will be preparing you to go to war against those entities (Sirians, Pleiadians and others) who are planning to come and rescue Earth from the Reptoid forces!

It will thus be a false invasion in that sense, as there will be many who are opposed to the very entities who are trying to preserve humanity's claim to the earth. In creating a false belief that they are fighting one group, when in fact they are actually working for the Reptoids.

The purpose of this discussion at this present time is to present a rough idea of the alien agenda, for there is a chance that this agenda will not be presented in the future, wherein certain government/alien control groups will present a different scenario, to give a different impression of what is occurring. Now is the time for you to understand the REAL agenda that is being promoted, before it becomes illegal to talk about any agenda, other than that which becomes the official line, for this could occur in the future.
